# Welcome

At the Briggs group, we know the plant and tools that construction professionals need!

Our combined experience of over 100 years as a supplier to the construction industry has helped us shape an unrivalled offering, available across a countrywide network of 15 locations.

With GPT Hire, Laois Hire, and Aerial Platforms, we employ a staff of over 300, ready to deliver for our customers. At each location we stock, service, and maintain our equipment to the highest operational standards.

Across our group companies, across the island of Ireland, we look forward to serving you and meeting your needs as a construction professional!

## Mesh Fence

Hire rate includes: Backstays.

A building site or premises with tools, materials, plant and other machinery can be very inviting to a thief – additionally the site could be a break-in route into adjacent properties.

These temporary 2.85 m wide mesh panels improve site security and are a cost-effective deterrent to theft and vandalism.

Supplied with rubber feet and stabilisers, the strong close mesh provides a secure barrier. Fencing is now a Health & Safety necessity to keep the public out and protect them from site hazards.

- Pedestrian and vehicle gates easily fitted
- Ideal for event crowd control
- Panels conform to HS (G) 151

Technical Specification	
Dimensions (L x H)	2.85 x 2m
Weight	33kg (panel), 33kg (foot)

## Solid Fencing

Providing site security and privacy, these smart screening panels are ideal enclosures in public areas such as shopping malls and airports. The solid galvanised panels are 2.2 m wide and supplied with rubber block feet and couplers.

Note: When screens are being used externally, additional ballast will normally be required, which is the responsibility of the hirer. Please refer to BS 6399 for notes on compliance. Example: In a town or city, 80km inland and 50m above sea level, each rubber foot requires 366kg of ballast. Other locations and conditions will require greater amounts of ballast.

- Strong vandal resistant panels
- Easy to assemble and transport 2.2 m panels

Technical Specification		
Dimensions (L x H)	2.2 x 2m	2.2 x 2m
Weight	49kg (panel), 33kg (foot)	49kg

## Pedestrian Barrier

Constructed from tough, strong galvanised steel, these 2.4 m long barriers are ideal for pedestrian control. Barriers can be interlocked to form an effective chain that can be easily erected and dismantled.

- Diverts pedestrians away from potential hazards
- Each barrier stands 1.2 m high

Technical Specification	
Dimensions (L x H)	2400 x 1200mm
Weight	11kg

## 2m Guard Barrier + Foot

These highly visible 2 m long guard barriers are recommended for placing around temporary roadworks, groundworks and open excavations. Designed to be linked together, each 1m high barrier features top-faced reflective material on one side.

- Built-in feet swivel through 360° for positioning
- HDPE construction – High impact strength and durability

Technical Specification	
Dimensions (L x H x W)	2000 x 1000mm
Weight	14kg

# Variable Message Signs

## Ireland's Largest Supplier of Variable Message Signs (VMS)

- Visible from up to 335m away.
- Direct message to your customers.
- Solar powered, running 24 hrs/day.
- Only a small space needed - narrower dimensions than a car.
- Displays range of text message, graphic or animation in amber or 5 colour mode
- Easy to transport, maintain and manage.

### Ideal for:

- Retail, Hotels, Garages
- Traffic management & road works
- Advertising and Communications
- Public notices of upcoming events

## 20ft x 8ft Office

- 2 Desks & 2 Soft Chairs & 2 Notice Boards
- 32Amp 240 Volt Inlet Plug
- Data Inlet Connection
- 3 Double 13amp Sockets, 2 with USB charging
- 1 Single 13amp Socket
- 1 Oil Filled 750 Watt Energy Efficient Heater
- 1 Coat & Hat Rail
- White GRP easy clean walls & ceiling
- High Density Insulation

Technical Specification	
Windows	2 x double glazed
Lights	2 x LED Strip lights
Door	1 x Multi Point Lock Steel door
Flooring	Black Anti Slip Vinyl

## 20ft x 8ft Canteen

- 32Amp 240 Volt Inlet Plug
- Fresh Water & Waste Water Connections
- Data Inlet Connection
- Stainless Steel Sink Unit with Hot Water Tap
- 2 Double 13amp Sockets with USB charging
- 1 Oil Filled 750 Watt Energy Efficient Heater
- White GRP easy clean walls & ceiling
- High Density Insulation
- Canteen Table & 8 Canteen Chairs

Technical Specification	
Windows	2 x double glazed
Lights	2 x LED Strip lights
Door	1 x Multi Point Lock Steel door
Flooring	Black Anti Slip Vinyl

## 20ft x 8ft Drying Room

- 32Amp 240 Volt Inlet Plug
- Data Inlet Connection
- 3 Double 13amp Sockets, 2 with USB charging
- 1 Single 13amp Socket
- 1 Oil Filled 750 Watt Energy Efficient Heater
- White GRP easy clean walls & ceiling
- High Density Insulation

Technical Specification	
Windows	2 x double glazed
Lights	2 x LED Strip lights
Door	1 x Multi Point Lock Steel door
Flooring	Black Anti Slip Vinyl

## 20ft x 8ft Toilet Block

- Fresh Water & Waste Water Connections
- Rodding Eyes
- 4 Unisex Single WC's, & 1 Urinal trough all with Hand Dryers, Sinks, Hot Water & Heating
- 3000l Internal Effluent Tank or Mains Connection
- Red & Amber Tank Level Indicators
- White GRP easy clean walls & ceiling
- High Density Insulation

Technical Specification	
Heating	Thermostatically controlled Blown Air
Lights	5 x PIR Lights
Door	5 x Multi Point Lock Steel door
Flooring	Black Anti Slip Vinyl

## EcoSmart 6 Person Welfare unit

Mobile self contained welfare facilities, ideal for any size or type of site.

- Efficient Eco smart technology
- Powerful Economical Generator
- Easy to move
- No nonsense 30 second Set up

- Fully insulated wall and roof system with no cold bridging
- PIR activated LED lighting & hot water without the need for the generator
- Low noise pollution
- Low fuel consumption
- Low CO2 emissions
- Automatic generator timed shut

Technical Specification	
Payload	250kg
Gross Weight	1800kg
Unladen Weight	1650kg
Dimensions (mm)	20(w) x 3615(L) x 2700(H)
Toilet Waste Capacity	110l

## Portable Toilets - Maxim 3000

This model is incredibly strong and spacious. By utilizing blow-mold technology to create twin-panel walls and a blow molded front, the cabana is almost indestructible. The cabana is also strengthened by interlocking corners, a fitted base and an overlapping roof design.

Technical Specification	
Height x Width	2286 x 1118mm
Depth	1219mm
Door Opening	610mm
Floor Area	5277cm2
Tank Volume	265L
Weight	85.8 kg

## Portable Toilets - Mondo

This model is low maintenance and has a spacious, well ventilated interior to reduce odors. Using fewer parts made from high density polyethylene, the Mondo can withstand impact and abusive handling without cracking or breaking.

Technical Specification	
Height x Width	2310 x 1118mm
Depth	1219mm
Door Opening	1937mm x 609mm
Floor Area	1041mm x 533mm
Tank Volume	227L
Weight	73.5kg

# Battery Powered Site CCTV Solution

## The innovative BauWatch GreenLight – for the ultimate solution for intruder prevention and detection

### GreenLight for project security

If you are responsible for a burglary-prone construction project, vacant property or a storage site for building materials, you'll also want to ensure nobody can enter to steal or vandalise the premises outside of working hours. Apart from loss and damage caused by burglary, the construction project can also suffer delays. In addition to the commercial implications of a delay, there's a potential impact on personal and company reputation.

### Prevention and Detection

The BauWatch GreenLight allows you to kill two birds with one stone: prevention and detection. Most vandals are deterred by the bright green light and run away. Those who do make an attempt to break in are immediately detected. Our 24/7 emergency room views the razor-sharp video recordings online and ensures the culprits get arrested. The

### BauWatch GreenLight is ideal for:

- Construction site security
- Real estate and vacant property • Parking security

Technical Specification	
Camera detection range	Maximum 100m
Type of detection	Video analysis for reliable detection
Internet connection	Integrated secure Internet connection
Power supply	230V with 48Hr backup battery
Alarm follow-up	24 / 7 connection with our emergency centre
Lights	Standard green, optional white or IR
Required space	2.5m x 2.5m
Dimensions	520kg/6.20m height

# Solar Powered Site CCTV Solution

Don't let bad weather stop your progress.  
Secure your site surveillance with the BauWatch Solar.

**A sunny solution, even in bad weather**

You don't want theft or vandalism to impact on your project delivery date. Even if there is no power supply for a surveillance system at your construction site, you still need reliable security. That is why you choose a high-functioning security system that is always working for you, come rain or shine. For example, camera surveillance that runs on solar energy with a 'bad-weather guarantee.' If clouds block out the sunlight, the system automatically switches to an alternative built-in energy source.

**Environmentally friendly back up**

CO<sub>2</sub>-neutral is currently a hot topic, and this includes construction sites. Convenience is what matters to you. BauWatch provides an excellent solution in the form of the Solar: this easy-to-move stand-alone camera is equipped with solar panels and a fuel cell on methanol. Thanks to the direct connection to our 24/7 control room, your construction site is always being effectively monitored. So, you can be environmentally friendly, whilst ensuring the progress of your construction project.

**The BauWatch Solar is ideal for:**

- Construction sites without power supply
- Infrastructure projects
- Wind and solar farms

Technical Specification	
Camera detection range	Maximum 100m
Type of detection	Video analysis for reliable detection
Internet connection	Integrated secure Internet connection
Power supply	Fuel cell, 3 solar panels and 48-hour back-up battery
Alarm follow-up	24 / 7 connection with our emergency centre
Lights	Standard IR LED or none
Required space	2.5m x 2.5m
Dimensions	725kg / 6.64m

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
